

SILICA RESOURCES
AUSTRALIA

Tully State High Year 10 students on site at Silica Resources Australia.

Silica Resources Australia hosts Tully State High students

30 year 10 students from Tully State High recently visited Silica Resources Australia.

The visit was part of a full-day trades and industry tour for year 10 students. As part of the tour, the students visited some of the region's biggest employers and TAFE. The aim was to provide the students with information on the opportunities that are available in our region.

Thank you to Jarred Rohl, Head of Department – Middle School at Tully State High for organising this important tour and for choosing to visit Silica Resources Australia. We look forward to welcoming you again in 2027.
